

Donat UWAMAHORO

FULL STACK SOFTWARE DEVELOPER

[Email](#) | [Github](#) | [Linkedin](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

Full-stack software developer and Innovation lover. Comfortable with pair-programming and remote work. Fluent in multiple languages, frameworks, and technologies, and an efficient hard worker. Talented in business advisory, innovation, and teaching new things to others. While many people lose what to do, for me I always came with a new Idea ready to be implemented using software. I helped 5 people to start their business and one of them came up with a website which is currently running and I am still working with them as part-time software developer and business advisor.

SKILLS

Front-End: HTML5, CSS3, Bootstrap

Back-End: C, C++, PHP, Ruby, Ruby on Rails, MySQL

Tools & Methods: Git, GitHub, RSpec, TDD, Heroku

Professional: Remote Pair-Programming, Teamwork, Mentoring
